BigCommerce - Installation Guide

Steps to install app from BigCommerce Marketplace

1. Get the app from Marketplace.

Click on Install, Acknowledge, and Confirm.

redov	a		
	а —		Free
cr	edo	ova	\star \star \star \star (0)
			Install

Credova is requesting to update its access to your BigCommerce store.	credova
By installing this app, Credova will be able to:	THINK ADVENTURE
 View and Modify Checkouts View and modify content on checkout pages View and modify site content View basic store configuration settings View and modify general store information and settings View and modify marketing information View and modify orders View and create order transactions View your basic information (name, email) Credova will not be able to: Access your password 	By checking this box, you acknowledge that PCI-DSS compliance (or non-compliance) of this application is entirely your own responsibility and you agree to release, hold harmless, indemnify and defend BigCommerce from any liability relating to the use of this application or for any known or unknown PCI-DSS vulnerabilities, data breach, fines, penalties, or non-compliance. Confirm
	By clicking "Confirm", you agree to the BigCommerce terms of service.

2. After that you will see the payment configuration screen. Be sure to use the API credentials provided by Credova consistent with the endpoint you are using (production vs. sandbox mode). Note: this is not the same login as your front end Credova admin dashboard.

9. Custom Site Theme

What is considered custom what is considered non-custom? The Credova plugin is designed to function using the *Cornerstone* theme on your store. Any other paid/unpaid theme on your store is considered a custom theme. As a consequence, so-called product and category selectors are required.

Themes Current Theme		
Book for Goods	Cornerstone Light Includes 3 styles Version: 5.3.0 Developed and supported by BigCommerce Customerce Theme Details Advanced •	
Themes		Upload Theme
Our free and pr	venium ecommerce templates make designing a gargeoux, fully responsive store fast and easy. Fiel more in the Theme Marketplace.	

Users need only to active the custom theme button if they are not using *Cornerstone* on the store:

Stettings ALA Settings Exclude Products	Credova Payment Configuration		
Site Theme Custom	Settings ALA Settings Exclude Products		
Custom Save	Site Theme		
Save	Custom		
			Save

What is a Product Selector?

A user can find the product selector from the product. This is basically a *class name* which the user can get from single product page as shown you in following screenshots:

→ C			> x 🛪 📵
